Reason Ultimately Rules!

Be it known that "Caffeine"--the drug in coffee--is a poison that works directly on nerves, stomach and heart.

It is hardly as quick in destruction as whiskey, but in time, quite as certain.

Our duty ends with telling the facts. Individuals are of course free to follow their own inclination. The man continues the drug and gets the use in physical suffering, and the man who continues the habit, provided the disease (stomach, bowels, kidneys, nerves or heart) has not become chronic.

It is our work to narrate the facts and offer an easy way to slip off the coffee habit and not feel it.

If a good hot, well-made cup of Postum is served instead of the coffee, it furnishes the sleep and the coffee 10 days. The Postum (the "Coffea") is a good, healthy, and the comfort of the morning cup is there, with this increased and never-to-be-forgotten advantage.

The drug-poison and its effect on stomach, nerves, bowels and heart is gone. In the place day by day can be plainly seen the effects of the change. The killing work of the drug has been stopped. Nature begins to repair and is helped tremendously by supplying the needed elements. Dime Minute requires to do her rebuilding.

These elements are in Postum. It is not necessary to take anyone's word for it. Try it yourself. Quick the coffee 10 days. The Postum (the "Coffea") is a good, healthy, and the
